

PLI

*Beautifully
flowing*

INSPIRATION IS A WONDERFUL THING – ESPECIALLY WHEN IT COMES FROM NATURE. HENCE, PLI LET ITSELF BE INSPIRED BY THE ELEMENT OF WATER AND CHARACTERISED BY IT IN TERMS OF FORM LANGUAGE. FOR WONDERFULLY SOOTHING CHARISMA: EVERYTHING IS IN FLOW.

The large moulded mineral double bathroom sink seems draped over. Nothing is too much, nothing distracts. The washbasins appear rounded out by constantly flowing water – and invite one to gain refreshment. The streamlined fronts and the thin bathroom sink plate round off the sensually white design well.

The element of water as a style godfather: It pours onto the floor cabinet like a drop of water, thus emphasising the horizontal linearity. In the process, excitement is brought into play by the delicately worked washbasin with a projection that flows there, which sets new standards in form and design. Everything staged softly by the fine mood lighting of the horizontally flowing light belt of the mirror. Perfect harmony.

THE ART OF RELAXATION

Inspired by the Zen doctrine and Japanese tea tradition, porcelain accessories in noble black and cotton wool or linen hand towels in sophisticated colours are now making their way into the bathroom. In the process, the colour contrast gives clarity and tranquillity at the same time.

SURFACES

You can find more materials, colours and decors with which you can give the surfaces of your Pli bathroom furniture an individual design in the product appendix, which starts on page 143.

NICE AND LIVELY

A small garden. Nice to look at and easy to maintain. A variation of succulents in the mini greenhouse makes it possible.

Naturally SIMPLE

Why just furnish your guest bathroom, when you can truly transform it? With its subtle design, soothing shapes and wide range of colour and material options, Crono makes it almost a must.

Everything IN FLUX

Pli is the proof: naturalness is the latest trend. For you, it means the creative freedom to create a completely harmonious atmosphere. Your guests will love it – like the mineral cast basin with its flowing lines, as an extraordinarily beautiful indent.
